How to Play

Use the trigger on your controller to ring the bell and throw presents into the chimneys.

How many presents can you deliver?

- 0 - 5 presents: Santa School Student
- 5 - 10 presents: Shopping Centre Santa
- 10 - 20 presents: Elf Level Respect
- 20 - 30 presents: Hey, no professionals. Oh, you're not? Well you should be.
- 30 - 40 presents : Next in Line for the Santa Throne
- 50-70: You are Santa Claus
- 70+: You are Mrs Claus

This game taught me valuable lessons on friendship and homicidal clowns. Didn't get laid tho.

But honestly: This game is a little awkward and partially cringy, but in an entertaining way. I wouldn't recommend buying it without discount though.. It's like Surviving Mars, if Surviving Mars was the worst game ever made.

. A great Strategy of Tower Defense with great challenges. I have loved it!. minecraft with guns. I have purchased the original games with some extra DLC (JFK, San Diego, and Atlanta) but the DLC are not installed. Please help me in fixing this issue, it is very frustrating. I feel like I have wasted my money on the DLC I bought.

This game is pretty interesting, but damn is it hard. It would have been nice if it tried to explain the logic to solving the puzzles. The difficulty curve is nuts, too. I tried and got stuck on level 3.. Overly simplified economy, for an economy game that about says it all. You ships look like little RC sailboats as the speed around the Mediterranean leaving huge wakes behind them. Just plain weird naval combat. If the economy was any good all of this could be overlooked. Basically plays like a mobile game (yes it's that simplified).. Fun, Action packed, and pretty. Any Tron fan will love this game, including people who like tank simulations. 4.5/5. I purchased the monthly subscription yet they don't let me render my videos without the watermark. I am genuinely shocked. I payed money to use a demo.. great engine I just can't get it to move.
